

"bedding" is substituted for the references to "articles of bedding".

(C) DISINFECTOR.

"DISINFECTOR" MEANS A PERSON WHO DISINFECTS BEDDING, BEDDING COMPONENT PARTS, OR FILLING MATERIAL.

REVISOR'S NOTE: This subsection formerly appeared as Article 43, § 65(4).

The former parenthetical alternative word "sterilizer" is deleted as inaccurate and archaic. A "disinfector" generally does not sterilize but merely disinfects and disinfests.

The only other changes are in style.

(D) DISINFECT.

"DISINFECT" MEANS TO RID BEDDING, BEDDING COMPONENT PARTS, OR FILLING MATERIAL OF:

(1) LIVE MICROORGANISMS THAT MAY CAUSE DISEASE;
AND

(2) LIVE BUGS AND PESTS.

REVISOR'S NOTE: This subsection is new language added to clarify that "disinfect", as used in this subtitle, includes the processes of: (1) removing microorganisms that may cause infectious disease -- in trade usage, to "disinfect" -- and (2) removing bugs and pests -- in trade usage, to "disinfest". The process of removing all microorganisms -- in trade usage, to "sterilize" -- is not required by the Department since sterility is only a transient condition.

(E) FILLING MATERIAL.

"FILLING MATERIAL" MEANS ANY MATERIAL THAT IS USED OR INTENDED TO BE USED AS FILLING IN BEDDING OR UPHOLSTERED FURNITURE.

REVISOR'S NOTE: This subsection is new language derived without substantive change from former Article 43, § 65(5).

The former enumeration of filling materials is deleted as unnecessary.

The former phrase "concealed, or not concealed" is deleted as superfluous.
