REVISOR'S NOTE: Subsection (a) of this section is new language derived without substantive change from the second sentence of former Article 43B, § 19(a) and rephrased to state expressly that the applicant must comply with the requirements of the Administration.

Subsections (b) and (d) of this section are new language derived without substantive change from the first and second sentences of former Article 43B, § 19(b).

Subsection (c) of this section is standard language added to express the formerly implied duty of the Administration to issue a certificate to a qualified applicant.

In subsection (b) of this section, the reference to "the form that the Administration requires" is new language added to express the formerly implied provision that applications may be made only on the form required by the Administration.

The third sentence of former Article 43B, § 19(b), which required the Administration to hold a requested hearing, is deleted as implicit in the reference in subsection (d) of this section to "an opportunity for a public hearing."

The Commission to Revise the Annotated Code notes, for consideration by the General Assembly, that there is no express provision for suspension or revocation of this certification. While the rules and regulations of the Administration do provide procedures, the General Assembly may wish to provide express procedures in this section.
