

Administration are substituted for the references to the Department, as the designated agency of this State, and for references to the Secretary, to reflect that responsibility for mental disorders was consolidated in the Administration on its creation, subject to the authority of the Secretary. See § 10-203 of this subtitle.

In subsection (a) of this section, references to "nonresidential" services and cases are substituted for references to "noninstitutional" services and cases, for clarity and conformity to other references elsewhere in this article.

In the introductory clause of subsection (a) of this section, the defined term "mental disorder {s}" is substituted for "mentally ill" and "mental illness", for clarity and conformity to the rest of this title.

In subsection (a)(1) of this section, the phrase "these individuals", which encompasses individuals with mental disorders and with conditions that may lead to mental disorders, is substituted for the limited reference to individuals with mental disorders. This substitution is based on the broader reference in the first sentence of former Article 43, § 44, which enabled the provision of services to both classes of individuals.

In subsection (b)(3) of this section, the former list of possible sources of funds is deleted as unnecessary.

Defined terms: "Administration" § 10-101  
 "Director" § 10-101  
 "Mental disorder" § 10-101
