

## EXECUTIVE ORDERS

B(9) Promote the retention, conservation, and cooperative management of private forest lands.

B(10) Protect and improve the productivity of the Chesapeake Bay as one of the State's chief natural resources.

B(11) Promote the preservation of fish and wildlife habitats in State development actions.

B(12) Protect the delicate nature and habitat of wetlands.

B(13) Minimize soil erosion.

B(14) Protect Maryland's shores from erosion and incompatible development.

B(15) Emphasize the protection of significant natural resources in the acquisition of parks and open space.

B(16) Manage renewable resources for productivity and continued usefulness and availability.

B(17) Conserve and protect non-renewable resources.

B(18) Develop and promote a strategy to conserve Maryland's ground and surface water supplies.

B(19) Protect significant historical and archaeological sites.

C. Policies to increase economic development and employment opportunities throughout the State for the well being of Maryland's residents:

C(1) Assist local governments and the private sector in encouraging industrial and business development.

C(2) Bring new businesses and industries to Maryland and promote the retention and growth of existing enterprises.

C(3) Promote employment opportunities for
