

## EXECUTIVE ORDERS

E(8) Promote energy recovery programs in waste disposal.

F. Policies to pursue the efficient provision of transportation, utilities, water and sewer facilities, and other public investment.

F(1) Promote density and compact development where the infra-structure and environmental capacity can sustain it.

F(2) Discourage diffused and "leap frog" residential and commercial growth.

F(3) Accommodate the development of compact new towns and communities where there is a demonstrated need and justification for growth and development.

F(4) Maintain the capacity of State primary highways and control highway access to discourage strip commercial and residential development and to satisfy the reasonable access requirements of industry.

F(5) Assure that the construction of water and sewer capacity to serve new growth is consistent with the accepted population projections and anticipated development.

F(6) Encourage the maximum use of the existing infra-structure in the State.

4. This Executive Order is not intended to and may not be construed to confer any right, privilege, or status on any private party cognizable by a court in any proceeding.

5. All executive agencies shall proceed to implement this Order pursuant to the schedule set forth below. Agencies shall take the following actions and report them to the State Development Council for review by the dates indicated.

a) By August 1, 1982, identify all programs affected by the principles and policies;

b) By August 1, 1982, identify those programs that can be used, without modification, to implement the Order and those requiring statutory or regulatory changes to implement the Order;
