

addition to holding any other license required by law," is added to state expressly that licensing under this subtitle does not preclude meeting other applicable licensing requirements; see § 10-104 of this title.

The phrase "operate a private, inpatient facility" is substituted for the reference to "admit, receive or detain any patients having any mental disorder for the purpose of care or treatment of such disorder", to reflect that, in practice, the Administration uses "admit", "receive", and "detain" only in connection with "inpatient" care and treatment and, thus, licenses only inpatient facilities under this provision. Separate authority for licensing private group homes appears in Part II of this subtitle. However, there are other private facilities that are neither inpatient nor group homes and for which there are no licensing provisions.

The former reference to the "Division of Licensing and Certification" is deleted to avoid reference to a nonstatutory unit, since the Secretary may transfer its functions at will.
