

BUDGET REQUEST APPROPRIATE FUNDING FOR COUNTY HEALTH DEPARTMENTS TO CARRY OUT HIGH BLOOD PRESSURE PROGRAMS UNDER THIS SECTION.

(C) EVALUATION.

EACH YEAR, THE COMMISSION SHALL:

(1) EVALUATE THE ENTIRE HIGH BLOOD PRESSURE PROGRAM; AND

(2) SEND THE EVALUATION WITH A REPORT TO THE GOVERNOR.

REVISOR'S NOTE: Subsections (a) and (c) of this section formerly appeared as Article 43, § 886(a) and (c).

Subsection (b) of this section formerly appeared as Article 43, § 887.

In subsection (a)(2)(vii) of this section, the reference "any other services that the Commission thinks should be covered" is substituted for the requirement that the guidelines "shall relate, but are not limited to", for clarity.

In subsection (b) of this section, the defined term "county" is substituted for "local" since the latter term is misleading and suggests that there is a local health department other than the county health department. This substitution is in accordance with the intent of Ch. 270, Acts of 1981, which, in part, abolished certain city, town, and other local boards of health.

In subsection (b)(2) of this section, the word "request" is added to reflect that the Department submits a request but the Governor determines the final form of the Budget Bill submitted to the General Assembly.

Also in subsection (b)(2) of this section, the reference to "high blood pressure programs" is substituted for the reference to "the entire high blood pressure program", to avoid the incorrect implication that a county health department would carry out the State "high blood pressure program", as well as its own.

The only other changes are in style.

Defined terms: "Commission" § 13-201  
 "County" § 1-101 "Includes"/"including" § 1-101  
 "Department" § 1-101
