

As to the scope of this section, see 63 Op. Att'y Gen. 3 (1978), which found that 2 advertisements made to the general public concerning the service of a pathology laboratory collecting station did not fall within the former Article 43, § 34(c) prohibition against advertising to the general public. The prohibitory section was found inapplicable because the advertisements clearly stated the limitations on the services of the laboratory to the general public and did not make false or misleading statements.

Defined terms: "Medical laboratory" § 17-201
