

(2) IS NOT INTENDED TO BE FURTHER SUBDIVIDED.

REVISOR'S NOTE: This subsection formerly appeared as HE § 9-501(i).

In item (1) of this subsection, "building site" is substituted for the former clause "intended to be used for building purposes", for clarity.

The only other changes are in style.

(I) MULTIUSE SEWERAGE SYSTEM.

"MULTIUSE SEWERAGE SYSTEM" MEANS A SEWERAGE SYSTEM THAT:

- (1) SERVES ONLY 1 LOT;
- (2) SERVES A NUMBER OF INDIVIDUALS;
- (3) HAS A TREATMENT CAPACITY OF MORE THAN 5,000 GALLONS A DAY; AND
- (4) IS NOT PUBLICLY OWNED OR OPERATED.

REVISOR'S NOTE: This subsection is new language derived without substantive change from former HE § 9-501(j).

The former reference to "a single system ... for the collection and disposal of sewage or industrial wastes of a liquid nature, including various devices for the treatment of sewage and industrial wastes" is deleted as included in a combined reading of the defined terms "sewage" and "sewerage system".

Item (4) of this subsection is substituted for the former reference to "whether owned or operated by an individual or group of individuals under private or collective ownership", to clarify that a multiuse sewerage system may not be owned or operated by the public. See generally 62 Op. Att'y Gen. 648 (1977). However, the Department believes that a multiuse sewerage system could apply to certain publicly owned entities, including certain State parks. Therefore, the General Assembly may wish to delete item (4) of this subsection to remove the restriction on public ownership or operation. If this is done, "multiuse sewerage system" should be added to § 9-505(a)(8), (10), and (11) of this subtitle.

(J) MULTIUSE WATER SUPPLY SYSTEM.

"MULTIUSE WATER SUPPLY SYSTEM" MEANS AN INDIVIDUAL WATER SUPPLY SYSTEM THAT:
