

9-510(b)(1) of this subtitle. No change in substance is intended.

As to subsection (b)(2) of this section, the reference to a review "conducted every 2 years" is new language added to conform to the provisions of § 9-503(b) of this subtitle.

In subsection (c)(2)(i) of this section, the specific type of a "permit to install or alter a water supply system, sewerage system, or solid waste disposal system" is substituted for the former reference to "construction permits", for clarity. This substitution also clarifies the authority of the Secretary to withhold only those permits that could be issued in the county that fails to submit or update a report of its county plan, since the former, ambiguous reference to "construction permits" could have applied, *inter alia*, to similar permits issued in other counties of this State.

In subsection (c)(2)(ii) of this section, "administrative review by the Secretary" is substituted for the former reference to "administrative action", to clarify that administrative review by the Secretary is a prerequisite to any action by the Board of Review in a contested case under the Administrative Procedure Act.
