

Section 3. Safety and Health(a) Safety and Health Programs

(1) Each State agency and department shall implement the Asbestos Safety and Health Program to protect State employees from asbestos contamination in the work environment. Each agency or department head shall appoint a Safety and Health Coordinator who shall be responsible to the agency or department head for carrying out the Asbestos Safety and Health Program.

(2) The Safety and Health coordinator shall appoint a Safety and Health Committee.

(3) Each Safety and Health coordinator shall consult the Secretary of Licensing and Regulation, or his designee, on matters relating to the formation and organizational structure of the Safety and Health Committee of the department or agency.

(b) The Secretary of Licensing and Regulation is responsible for the safety and health provisions of the Asbestos Safety and Health Program.

(c) Equipment

(1) Each department and State agency shall equip its employees with appropriate protective clothing where there is the possibility of skin or clothing contamination with asbestos. Type "C" pressure demand supplied air respirators with full facepieces approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health and described in the Safety and Health and Equipment Action Plan contained in the Asbestos Safety and Health Program, shall be used by all Level II employees described in Section 4(b)(3) of this Executive Order while those employees are performing Level II type activities.

(2) The Secretary of Licensing and Regulation is responsible for coordinating the equipment provisions of the Asbestos Safety and Health Program.

Section 4. Medical Monitoring and Training Program(a) Medical Monitoring Requirements

(1) The Secretary of Health and Mental Hygiene shall oversee the preplacement, periodic and post-employment examinations in accordance with the Asbestos Safety and Health Program for Level II employees described in Section
