 Thompson to give his Evidence to the above tree, When Ju. Norris and myself with Revell

 tree to the same purpose as above; Adding he was confirmed thereto by the knowledge he had
 of the adjacent Land and Swamp, and said the officer he came on the place the more
 he was confirmed that that was the tree and no other, and carrying us up the River about
 a hundred Yards to the Northward to another tree that is notched on four sides had been
 shown him by Mr. Roger and Mr. William Clouston and did then positively declare as he was upon
 his oath that that was none of the trees, but the white oak w^{ch} stands by the Swamp this was
 the very tree he caused to be bounded for the beginning tree of the said Land, he being
 then positive to the ground that if that was not the very tree he was sure and confident it did
 stand within twenty or twenty five paces of that tree, neither to the Northward Eastward nor
 Southward, but if any way to the Westward nearer the River, All w. he declared upon
