Abraham Morgan Aged about forty six years, on his Test says that about
 29 or 30 years agoe he was sent to fetch Andrew Skinner to prove the bound
 Tree of my Lords Manor (there being a dispute between Ed. Vincent Esq^r &
 John Edmondson about it) and on his Test he says, that when the said Skinner
 was brought to the Tree, that Thomas Edmondson began at first Mount hope he
 caused those that were there, to sit him with his back to the Tree and his face to
 the Rising of the Sun, and being so sett, said, that, if that was the Tree of my
 Lords Manor, there is a little Swamp or pocofou a little from the Tree towards
 the Sun rising and a great white Cake blown up by the Root blisng the
 Tree and the said Swamp or pocofou.

And the said Abraham on his Test further sayth that the above mentioned
 persons and severall others at that time present looking diligently about
 could not find any such Marks to prove the said Tree by, but that the
 said Tree has been doomed the first Tree of Mount hope from that time to
 this, and has so been Runn out severall times. *Abra: Morgan*
