The *Maryland Manual On-Line* is updated continually on the Web at mdmanual.net. This compact disc (CD) reflects the entire *Manual* website as of June 2001.

To use the self-executing CD, simply insert it in your computer CD reader. Its contents automatically will appear on your screen if Microsoft Internet Explorer (version 4 or above) is installed on your computer. [Explorer does not have to be the default browser.] This CD will not work on a Mac platform.

If the presentation does not start automatically even though Internet Explorer is installed, go into Windows Explorer, navigate to the CD drive, and double click on mm2001.exe.

To use the CD in traditional mode (with any browser), open browser, go to File menu, Open Page, Choose File and browse to the CD drive. Then, open the mdmanual folder and click on 00index.html to open it.

Use the CD in the same manner as you would the Web, searching and clicking on links as necessary. In order for external links to work, you must have Internet access.

For additional copies of the CD or a subscription to quarterly CD updates of the *Maryland Manual On-Line*, contact:
