REVISOR'S NOTE: Subsection (a) of this section is new language added to allow concise reference to the property of a unit. This addition is based on the lists of types of property in former Art. 41, § 5.

Subsections (b) and (d) of this section are new language derived without substantive change from former Art. 41, § 5.

Subsection (c) of this section is new language derived without substantive change from former Art. 54, § 6.

This section is revised to reconcile the provisions of former Art. 41, § 5 and of former Art. 54, § 6 that related to records. Former Art. 41, § 5 provided for records to be given to the successor, if any, or to the Board of Public Works. Former Art. 54, § 6 required records to be given to the Hall of Records Commission "unless otherwise directed by law" and, in light of former Art. 41, § 5, could be read to have no effect. This reading seemed unintended since former Art. 41, § 5 last was amended by Ch. 70, Acts of 1939, while former Art. 54, § 6 was enacted first by Ch. 79, Acts of 1956, and transferred, without amendment, by Ch. 344, Acts of 1967. This revision allows the records to vest in the successor, if any -- as indicated by former Art. 41, § 5 -- and, in absence of a successor, to vest in the State Hall of Records Commission -- as indicated by former Art. 54, § 6.

In subsection (b) of this section, the word "authority" is substituted for the former enumerations
