

Article 56 - Licenses

534.

(b) An applicant for examination for a master electrical license shall have been regularly and principally employed or engaged in electrical construction, maintenance, installation, and repair of all types of electrical equipment and apparatus for not less than 7 years preceding the date of the application, under the direction and supervision of a master electrician[, 3 years during which the applicant supervised or was actively in charge of electrical installation work]. The Board may credit not more than 3 years for formal course study or professional training in electrical installation if, in the opinion of the Board, the study or training provided comparable experience and training otherwise attainable under the supervision of a master electrician or while employed by a government agency.

535.

(a) Within 60 days of the issuance of a statewide license, the applicant shall hold a license in the jurisdiction of this State in which the applicant resides [or], the jurisdiction of this State in which the applicant's principal business office is located, OR THE JURISDICTION OF THIS STATE IN WHICH THE APPLICANT'S RESIDENT AGENT IS LOCATED.

541.

(A) This subtitle does not apply to:

(1) Employees of any person engaged in contracting who are subordinates of the person who is licensed to engage in contracting, if the employees do not hold themselves out for hire, or engage in contracting except as an employee;

(2) (i) Any political subdivision which does not have licensing provisions for this activity or has specific provisions for licensing electricians other than master electricians, such as master limited, maintenance, or restricted electricians.

(ii) In such cases the people licensed shall be under the control and supervision of local boards[.];

(3) ~~SUBJECT-TO-SUBSECTION-(B)-OF-THIS-SECTION,~~ PUBLIC [Public] utility companies, regulated by the Public Service Commission, when engaged in development, construction, [and maintenance of company owned and maintained equipment on their] MAINTENANCE, AND REPAIR OF ELECTRIC FACILITIES, ON THEIR premises or on other premises, roadways, and rights-of-way where they have a lawful interest;

(4) The sale or installation of any finished products, materials, or articles or merchandise which are not actually fabricated into and do not become a permanent fixed part of the structure or premises; or
