

(5) State and describe the amount and type of reclamation carried out during the previous year;

(6) Estimate the acreage to be newly disturbed by mining in the next year; and.

(7) Provide any additional information or maps which the Department reasonably requires.

(b) In addition, at the end of each calendar year the [operator] PERMITTEE shall furnish to the Department a new surveyed map, showing the status of the operation and indicating the area affected and reclaimed during the preceding year, particularly with relation to the property lines and boundaries shown on the map and survey furnished with the original application. A registered professional engineer or professional surveyor is not required to prepare this progress report map. However, if prepared by the [operator's staff] PERMITTEE, the map shall be of reasonable quality, accuracy, and legibility, and acceptable to the Department.

7-6A-25.

(a) At any reasonable time which the Department elects, but at least once a year, the Department shall cause each permit area to be inspected to determine if the [operator] PERMITTEE has complied with the mining and reclamation plan, the requirements of this subtitle, any rules and regulations adopted under it, the terms and conditions of the [operator's] permit, and if the current status of the operation conforms with the most recent annual progress report. Accredited representatives of the Department at any reasonable time may enter on the land subject to the permit to inspect and investigate it but while on the property, Department personnel shall comply with all governmental SAFETY regulations.

(b) The [operator] PERMITTEE shall proceed with reclamation as scheduled in the approved mining and reclamation plan. Following each inspection, the Department shall notify the [operator] PERMITTEE by certified mail, return receipt requested, bearing a postmark from the United States Postal Service, of any deficiencies noted. The [operator] PERMITTEE shall proceed with mining and reclamation as scheduled in the approved mining and reclamation plan. Following each inspection, the Department shall notify the [operator] PERMITTEE of any deficiencies noted. Upon failure by the permittee to correct these deficiencies, the Department may take action to suspend or revoke the permit as provided in § 7-6A-18 OF THIS SUBTITLE.

(c) If the Department finds that reclamation of the permit area is not proceeding in accordance with the mining and reclamation plan, or if the Department finds that reclamation has not been properly completed in conformance with the mining and reclamation plan within two years or longer if authorized by the Department, after termination of mining on any segment of the
