

In subsection (a) of this section, the reference to "counties listed in § 5-911(b) of this subtitle" is substituted for the former words "appropriate local jurisdictions", for clarity. This revision is called to the attention of the General Assembly.

Also in subsection (a) of this section, the reference to the "Department" presenting the Plan to the General Assembly is added for clarity and to conform to administrative practice.

In subsection (b) of this section, the words "units of the State government" are substituted for the former words "State agencies", for consistency with language used elsewhere in this article.

The Commission to Revise the Annotated Code points out to the General Assembly that it is unclear whether the approval procedure set forth in subsection (a) of this section can be decodified as obsolete in light of the adoption of the Plan by the General Assembly. If the approval process applies only to the Plan, and not to any revision or updating of the Plan, then it would seem that subsection (a) of this section could be decodified.
