

Subsection (a)(4) of this section is new language that combines, without substantive change, former Art. 15A, § 9A(a)(5) and (7). This revision reflects that the former defined term "Department" appeared only twice, in former Art. 15A, § 9A(a)(7) and (b). Since, in this revised section, the reference, in former Art. 15A, § 9A(b), to "the Department" is not retained, the former separate definition of the term "Department" is unnecessary. Compare, however, subsection (a)(2) of this section, which does not specifically include the Office of the Secretary and the modal administrations since, in former Art. 15A, § 9A(a)(2), the former defined term "Department" was not used.

Subsection (b) of this section is new language derived without substantive change from former Art. 15A, § 9A(b).

In the introductory clause of subsection (b) of this section, the former reference to the "State budget" is deleted as unnecessary since the form of the budget bill dictates the form of the supporting documents.

In subsection (b)(1) of this section, the word "items" is substituted for the former word "appropriations", to conform to § 7-206 of this title.

Former Art. 15A, § 9A(a)(4), which defined "Consolidated transportation program", is deleted as unnecessary since the former defined term is not used in this section. The term was used in former Art. 15A, § 9A(c) and (d), which now appears in § 7-238 of this title and TR § 2-103.1.

Defined term: "Proposed budget" § 7-101
