

[(5)] (4) Shall either hold a degree in architecture from an architectural school in the United States accredited within two years of the applicant's graduation therefrom by the National Architectural Accrediting Board or shall hold a degree in architecture from a foreign architectural school judged by the Board to be comparable to an accredited school in the United States and shall have had such practical experience including academic training as the Board shall deem appropriate. In lieu of the requirement of a professional degree from an accredited school of architecture, the Board may admit an applicant to take the examination for registration who has had such additional practical experience including academic training, as the Board shall deem appropriate. The Board may further require the nonprofessional degree applicant to pass a qualifying examination.

SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect July 1, 1986.

Approved April 8, 1986.
