

Comptroller shall consider whether a competent chemist using modern analytical techniques could be reasonably expected to identify the component.

(c) Every manufacturer, refiner, [or] SPECIAL FUEL SELLER AND motor fuel wholesaler shall file all terminal agreements with additive and refinery specifications for approval by the Comptroller of the Treasury before any sales can be made.

(h) No motor fuel wholesaler, [diesel] SPECIAL fuel seller, [heating oil distributor,] manufacturer, refiner, [jobber,] common carrier, and contract carrier engaged in interstate and intrastate transportation of gasoline and special fuels may willfully adulterate or comingle any refined gasolines with other [petroleum products] MOTOR VEHICLE FUEL. No common carrier or contract carrier may place any additives in any gasoline or special fuels. This subsection shall not preclude adulteration or comingling of gasoline with other [petroleum products] MOTOR VEHICLE FUEL which occurs as a natural cause of transit and as a consequence of transit in pipeline carriers.

157G.

[Every person, firm or corporation delivering at wholesale or retail any gasoline in this State, shall deliver the same to the purchaser only in trucks, tank wagons, tractor trailers, tanks, barrels, cans, motor vessel, barge, tank car, aircraft or other containers having the words "gasoline" and "flammable" plainly stenciled or labeled thereon. Except for underground tanks, every purchaser of gasoline for use or sale shall procure and keep the same only in tanks, barrels, cans or other containers having the word "gasoline" stenciled or labeled thereon.

Every person, firm or corporation delivering at wholesale or retail any special fuels in this State shall deliver same to purchaser only in trucks, tank wagons, tractor trailer, tanks, barrels, cans, motor vessel, barge, tank car, aircraft or other containers having the word "kerosene," "heating oil" or "diesel oil" plainly stenciled or labeled thereon and every person purchasing same for use or sale shall procure and keep the same in tanks, barrels, cans or other containers stenciled or labeled as heretofore provided, except that this provision shall not apply to underground tanks.

Nothing in this section shall prohibit the delivery by pump of gasoline and special fuels into the tank of any automobile or other motor vehicle.]

In the event that a truck, tank wagon, tractor trailer, tank, barrel, can or other container is used for the delivery of both gasoline and special fuels all traces of gasoline must be removed before a delivery of special fuels can be made at wholesale or retail.
