

(1) A soft drink; or

(2) Any substance used in the preparation of a soft drink.

(b) Each manufacturing plant shall be operated:

(1) With strict regard to the health of all the manufacturer's employees;

(2) With due regard to the purity of each soft drink and the substances used in the preparation of a soft drink that the manufacturer produces;

(3) In compliance with this subtitle; and

(4) In compliance with Subtitle 1 of this title.

(c) (1) Each manufacturer shall keep all places to which this section applies properly lighted, ventilated, and equipped with adequate plumbing.

(2) In each part of a manufacturing plant to which this section applies, the manufacturer, at all times, shall keep the floors, walls, ceilings, furniture, receptacles, machinery, and implements in a healthful and sanitary condition.

(d) Each manufacturing plant shall have impermeable floors that:

(1) Can be flushed and washed clean with water; and

(2) Are made of:

(i) Cement;

(ii) Tile laid in cement;

(iii) Brick;

(iv) Wood; or

(v) Other suitable nonabsorbent material.

(e) Each manufacturer shall keep all the interior woodwork in the manufacturer's plant washed and cleaned with soap and water.

(f) In the parts of a soft drink manufacturing plant that are used to manufacture a soft drink or substance used in the preparation of a soft drink, the walls and ceilings shall be kept oil painted or well washed with lime.
