

For another definition of "person" that applies to this subtitle, see § 1-101(f) of this article.

(D) REFUSE DISPOSAL SYSTEM.

"REFUSE DISPOSAL SYSTEM" INCLUDES:

- (1) AN INCINERATOR;
- (2) A TRANSFER STATION;
- (3) A LANDFILL SYSTEM;
- (4) A LANDFILL; AND
- (5) ANY OTHER REFUSE DISPOSAL SYSTEM.

REVISOR'S NOTE: This subsection is new language added to this section to avoid dissimilar references throughout this subtitle to the term "landfill system". All of the items of this subsection are parts of a refuse disposal system.

(E) SEWAGE.

"SEWAGE" MEANS:

- (1) ANY HUMAN OR ANIMAL EXCRETION OR WATER-CARRIED DOMESTIC WASTE; OR
- (2) A MIXTURE OF INDUSTRIAL WASTE AND ANY OF THE THINGS IN ITEM (1) OF THIS SUBSECTION.

REVISOR'S NOTE: This subsection is new language derived without substantive change from former HE § 9-201(c), and is revised for clarity to conform to the administrative interpretation of the Department.

In item (1) of this subsection, the term "water-carried domestic waste" is substituted for the former terms "street wash" and "domestic waste", in part because the concept of being carried by water is clearly a part of the definition of "sewage". The term "water-carried domestic waste" also helps to distinguish "sewage", as defined in this subsection, from a "landfill". Additionally, the former term "street wash" is deleted since stormwater runoff is regulated under Subtitle 3 of this title, and not this Subtitle 2.

In item (2) of this subsection, the term "industrial waste" is substituted for the former term "manufacturing waste", for consistency with other
