

(II) THE QUALITY OF THE WATER HAS BEEN INJURED BY HANDLING OF THE WATER AFTER IT HAS ARRIVED IN THIS STATE.

(E) SAME -- PROHIBITED WITHOUT PERMIT.

A PERSON MAY NOT SELL DRINKING WATER FROM OUTSIDE THIS STATE UNLESS THE PERSON HAS A PERMIT UNDER SUBSECTION (D)(1) OF THIS SECTION.

(F) DATING CONTAINERS.

A PERSON MAY NOT PACKAGE OR SELL IN THIS STATE DRINKING WATER IN INDIVIDUAL CONTAINERS MADE OF PAPER OR PLASTIC-COATED PAPER UNLESS EACH CONTAINER IS MARKED WITH A STENCIL OR STAMP THAT CLEARLY STATES THE MONTH AND DAY WHEN THE WATER WAS PLACED IN THE CONTAINER.

REVISOR'S NOTE: Subsections (a), (b), (c), (d)(2) and (3), (e), and (f) of this section are new language derived without substantive change from former HE § 9-220.

In subsections (b) through (e) of this section, the references to collecting, bottling, and delivering water "in containers" are new language added to conform to the apparent intent of the General Assembly in adding those references to subsections (a) and (f) of this section.

Subsection (d)(1) of this section is standard language added to state clearly that a person who sells drinking water shipped from outside the State must have a permit from the Department.

In the introductory language to subsection (a) of this section, the word "jurisdiction" is substituted for the former words "supervision and control", for clarity and conciseness.

In subsection (a)(1) of this section, the former reference to a source of water being "either surface or underground" is deleted as unnecessary in light of the clause "any source from which drinking water is collected".

The General Assembly may wish to consider whether subsection (f) of this section should be expanded to require that all containers, instead of only paper containers and plastic-coated paper containers, be dated. This addition would include containers made of plastic, glass, and other nonpaper materials.
