

7-103.

The WSSC Capital Improvements Program shall include:

(1) For each major project, a statement of the objectives and the relationship to the long-range development plans designated by each county;

(2) A projected construction schedule, an estimate of cost, and a statement of funding sources, including contributions that may be required for the construction of a project;

(3) For each major project, the information and documentation that the WSSC is required to submit for the 6 year period covered by the Program under the provisions of Title 9, Subtitle 5 of the Health - Environmental Article;

(4) Major projects that the WSSC considers may be required:

(i) In each of the following 6 fiscal years in the sanitary district; and

(ii) In other areas that the WSSC considers appropriate to include in the sanitary district in each of the following 6 fiscal years;

(5) Additions of new major projects and the deletion, modification, or rescheduling of previously approved major projects for which a construction contract has not been let or will not be let during the fiscal year in which the WSSC Capital Improvements Program is being submitted;

(6) An indication, by major project, of the lines [or storm drainage facilities] for which construction contributions have been made or committed, together with the amounts of contributions as of date of the preparation of the proposed major program;

(7) Additional information for major projects for which contributions are made or committed before approval or amendment of the WSSC Capital Improvements Program; and

(8) For each major project, as applicable:

(i) The estimated maximum diameter, length, and location of water and sewer lines;

(ii) The design capacity and approximate location of pumping stations;
