

(ii) Subject to paragraph (2) of this subsection, may not extend a water line of any size or capacity [or a storm drainage system] beyond the approved terminal point of a WSSC capital improvements project.

(2) If the County Councils have approved the extensions, the WSSC may extend a water line or a storm drainage system beyond the terminal point:

(i) If the extension of a water line [or storm drainage system] would provide water service [or a storm drainage system] to a development that is within an approved sewer project area; or

(ii) If the county through its appropriate agency has approved the installation of individual sewage disposal facilities.

(3) The WSSC may construct an extension that requires approval under this section:

(i) If the proposed extension has been submitted for approval; and

(ii) If the county has not within 30 days after receipt of the proposed extension notified the WSSC that the extension should not be made.

9-101.

(a) (1) Except as otherwise provided by this article, the WSSC may adopt rules and regulations to carry out the provisions of this article and any other laws the enforcement and administration of which is vested in the WSSC.

(2) The WSSC may:

(i) Limit or regulate the use and supply of water service[,] AND sanitary sewer service[, and storm and surface water drainage service] on a temporary basis in any area or to any premises served by the WSSC's facilities, as the needs of the occasion and the protection of the WSSC's systems require;

(ii) Adopt rules and regulations not inconsistent with law that the WSSC considers necessary for the public safety, health, comfort, or convenience in the construction, operation, maintenance, expansion, relocation, replacement, renovation, and repair of the WSSC's water system[,] AND sanitary sewer system[, and storm and surface water drainage system]; and

(iii) Fix the forms of permits and specify the nature, type, and amount of information, detail, and engineering
