

evidence satisfactory to the Board that the applicant is qualified for registration as a professional land surveyor, or for certification as a land surveyor-in-training, or for registration as a property line surveyor.

(b) (1) Graduation from an engineering or land surveying curriculum of four scholastic years or more or their equivalent approved by the Board; a specific record of an additional four years or more of experience in surveying work of a character satisfactory to the Board and indicating that the applicant may be competent to practice surveying (in counting years of experience, the Board may give credit, not in excess of one year, for satisfactory graduate study in surveying); and the successful completion of [an eight-hour] A written examination in the fundamentals of surveying, and of [an eight-hour] A written examination in the principles and practice of surveying. If evidence presented in and with the application does not appear to the Board to warrant the admission to the examination, the applicant may be required to present further evidence for the consideration of the Board; or

(2) Graduation from an engineering or land surveying curriculum of four scholastic years or more or their equivalent other than the ones approved by the Board; a specific record of an additional six years or more of experience in surveying work of a character satisfactory to the Board and which indicates to the Board that the applicant may be competent to practice land surveying; and the successful completion of [an eight-hour] A written examination in the fundamentals of surveying designed to show knowledge and skill equivalent to that obtained through graduation from an approved four scholastic year engineering curriculum and of [an eight-hour] A written examination in the principles and practice of land surveying. If the evidence presented in and with the application does not appear to the Board to warrant the admission to the examination, the applicant may be required to present further evidence for the consideration of the Board; or

(3) A specific record of at least 12 years of experience in land surveying of a character satisfactory to the Board indicating that the applicant may be competent to practice land surveying, if the evidence of such practice presented by the applicant is satisfactory to the Board, and if the applicant successfully completes [an eight-hour] A written examination in the principles and practice of land surveying. If the evidence presented in and with the application does not appear to the Board to warrant the admission to the examination, the applicant may be required to present further evidence for the consideration of the Board.

(c) (1) Graduation from a surveying or engineering curriculum of four scholastic years or more approved by the Board
