

Funds are appropriated in various State agency budgets to pay for services provided by this program. Authorization is hereby granted to use these receipts as special funds for operating expenses in this program.

It is the intent of the Budget Committees that the Department of Personnel and the Department of Budget and Fiscal Planning provide information on the development of a new contract for State employees health insurance. Accordingly, after the request for proposal is developed, the departments shall report to the Budget Committees on the overall design of the health insurance program to which contractors will be asked to respond. The departments should address whether the recommendations of the State Employees Health Insurance Advisory Council will be built into the request for proposal and any other major changes contemplated. After a contractor is chosen, the departments shall report on the new contract, addressing State costs, expected savings to result from the new contract compared to the previous contract and provisions for controlling cost growth. The departments are to report as soon as practicable on these developments, but on the request for proposal no later than May 15, 1987 and on the new contract no later than September 1, 1987.
