

financial and technical resources[.];

(9) Evaluate issues concerning implementation that may arise due to federal acid deposition control legislation, including:

(i) The examination of the regulatory authority of the Commission and the Department of the Environment to implement a federally enacted emissions control program; and

(ii) The identification and analysis of issues such as nitrogen oxide controls, cost sharing, emissions trading, and costs of controls that may be applied to the industrial, mobile, and residential sectors versus the utility sector;

(10) Initiate research and monitoring projects that are found to be necessary to augment information related to the sources and impacts of acid deposition affecting the State; and

(11) Examine the possible contribution to the control and reduction of acid deposition through energy management, enhanced conservation activities by electric utilities, and development of alternative sources of energy.

Occurred: Ch. 607, Acts of 1986.

3-604.

In order to carry out the policy of this subtitle, the Secretary of Natural Resources shall:

(a) On his or the Governor's determination that the State's interest should be considered in an application proceeding under the federal act, request the federal Secretary to designate the State of Maryland as an "adjacent coastal [state.] STATE". The request shall be communicated only with the approval of the Governor and shall include evidence to support the conclusion that there is a risk of damage to the coastal environment of the State equal to or greater than the risk posed to a state directly connected by pipeline to the proposed deepwater port. A request shall be communicated in accordance with § 9(a)(2) of the federal act;
