

(2) In making its determination, the Commission shall consider the qualifications of the applicant, the services proposed to be rendered and the rates proposed to be charged by the applicant, the potential demand for and the availability of radio common carrier services in the area proposed to be served, and all other factors the Commission considers relevant.

(3) The Commission by regulation shall adopt procedures to assure expeditious disposition of applications filed under this subsection.

(e) The provisions of this article relate only to "radio common carriers" as defined herein and are distinguishable from mobile radio telephone service offered by land line telephone or telegraph utilities regulated by the Commission.

(f) Whenever the Commission shall find that public convenience and necessity require the interconnection of the radio communication facilities of a certificated radio common carrier with the telephone facilities of a land line telephone utility serving all or part of the certificated territory of the radio common carrier, and that the radio common carrier and land line telephone utility have failed to agree upon such interconnection or the terms and conditions or compensation for the same, the Commission may order that such interconnection be permitted and prescribe a reasonable compensation and reasonable terms and conditions for the interconnection.]

SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect July 1, 1988.

Approved May 17, 1988.
