

(3) To the Department of Agriculture for advice on the impact of water and sewerage service and solid waste facilities on productive or potentially productive agricultural land.

9-1405.

(a) The Secretary:

(1) Shall adopt rules and regulations to carry out the provisions of this experimental Program under this subtitle;

(2) Shall request demographic, land use, fiscal impact, or other pertinent information from the [Department] OFFICE of [State] Planning or any community planning agency; and

(3) Shall prepare and submit a report to the Governor that describes the activities of the Program and makes recommendations to improve the Program.

Article - Health - General

19-111.

(d) The Commission shall require that in developing local health plans, each local health planning agency:

(1) Use the population estimates that the Department prepares under § 4-218 of this article;

(2) Use the figures and special age group projections that the [Department] OFFICE of [State] Planning prepares annually for the Commission;

(3) Meet applicable planning specifications; and

(4) Work with other local health planning agencies to ensure consistency among local health plans.

Article - Natural Resources

3-106.

(a) The director, after consultation with the Secretary of Natural Resources, [the Secretary of State Planning,] the Secretary of the Environment, THE DIRECTOR OF PLANNING, and the municipalities affected, shall determine appropriate boundaries for water supply service regions, wastewater purification service regions, and solid waste disposal service regions. Service regions shall be based upon needs set forth in, and provide integration of, approved State-county master plans for water and sewerage or solid waste disposal, adopted pursuant to the
