

Subsection (c)(2) of this section is standard language added to state expressly that which only was implied in the former law -- i.e., applicants for renewal must meet other licensing requirements of this title.

Subsection (c)(4) of this section is standard language added to state expressly that which only was implied in the former law -- i.e., applications for renewal may be made only on the form that the Board provides.

Subsection (d) of this section is new language substituted for the fourth clause of the first sentence of former Art. 74, § 4(b), which enabled the Board to "renew any license or not, as they may think proper", to clarify that the Board must renew the license of a qualified licensee. While the Board may revoke a license for certain grounds under § 11-409 of this subtitle, the Board does not have unlimited discretion to refuse to renew the license of a qualified licensee.

In subsection (c) of this section, the term "draft" is substituted for the former term "draught", to conform to contemporary usage.

See Kahn v. State Board of Examiners of Optometry, 162 Md. 667 (1932), for possible application as to the status and rights of a former licensee who has failed to renew the license and who then seeks reinstatement.
