This substitution also reflects that, occasionally in former Art. 56, §§ 463 through 478, the term "registered architect" was used in a manner consistent with the former definition of "architect" and that the term "licensed architect" also was used.

Occasionally, the term "licensee" is used in this title as a synonym for "licensed architect". Since "license" is defined in subsection (d) of this section, "licensee" need not be defined separately.

As to the substitution of the word "licensed" for the former word "registered", see the General Revisor's Note to this article.
