

The following schedules include the controlled dangerous substances listed or to be listed by whatever official name, common or usual name, chemical name, or trade name designated.

(b) In determining that a substance comes within this schedule, the Department shall find:

1. A high potential for abuse, and
2. Currently accepted medical use in the United States, or currently accepted medical use with severe restrictions, and
3. Abuse may lead to severe psychic or physical dependence.

The following are controlled dangerous substances and are included in this schedule:

a. Any of the following substances except those narcotic drugs listed in other schedules whether produced directly or indirectly by extraction from substances of vegetable origin, or independently by means of chemical synthesis, or by combination of extraction and chemical synthesis:

2. Any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of the substances referred to in [clause 1,] ITEM 1 OF THIS PARAGRAPH, except that these substances shall not include the isoquinoline alkaloids of opium;

DRAFTER'S NOTE:

Error: Stylistic error in Article 27, § 279(b)a.2.

Occurred: Ch. 683, Acts of 1988.

The following schedules include the controlled dangerous substances listed or to be listed by whatever official name, common or usual name, chemical name, or trade name designated.

(d) In determining that a substance comes within this schedule, the Department shall find that:

1. The substance has a low potential for abuse relative to the substances listed in Schedule III; and
2. The substance has currently accepted medical use in treatment in the United States; and
3. Abuse of the substance may lead to limited physical dependence or psychological dependence relative to the substances in Schedule III.
