

Article 78 – Public Service Commission Law

54B.

(c) (1) The Public Service Commission shall impose an environmental surcharge per kilowatt hour of electric energy generated within Maryland and shall authorize the electric companies to add the full amount of the surcharge to customers' bills. To the extent that the surcharge is not collected from customers, the surcharge shall be deemed a cost of generation and shall be allowed and computed as such, together with other allowable expenses, for rate-making purposes. Revenues from the surcharge shall be collected by the Comptroller and placed into the special fund known as the Environmental Trust Fund. The Secretary of Natural Resources annually shall coordinate the preparation of a budget required to carry out the provisions of the power plant siting and research program, as set forth in the Natural Resources Article. Upon approval of the budget by the General Assembly, the Public Service Commission shall establish the amount of the surcharge per kilowatt hour for the fiscal year beginning July 1, 1972, and for each subsequent fiscal year.

(2) Notwithstanding any other provisions of this subtitle, the amount of the surcharge for each account may not exceed the lesser of 0.15 mill per kilowatt hour or \$1,000 per month and the surcharge may not continue beyond fiscal year [1995] 2000.

(3) The Comptroller shall maintain the method of collection of the surcharge from the companies and the collections shall accrue to the Fund. The Department shall credit against the amount required to be paid into the Environmental Trust Fund by each electric company an amount equal to 1 1/2% of the total surcharge attributed to each company on the basis of the electricity generated within Maryland.

SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect October 1, 1993.

Approved May 11, 1993.
