

In subsection (b) of this section, the phrase “[s]ubject to the requirements of this title” is added to reflect that the Secretary’s authority is limited by the specific requirements of this title. Thus, for example, the Secretary’s regulations may not deny leave to an employee who is entitled to that leave under the express provisions of this title.

Also in subsection (b) of this section, the former phrase “[n]otwithstanding any other ... law” is deleted as misleading given that later enactments of the General Assembly could well supersede these provisions.

The State Personnel Article Review Committee notes, for consideration by the General Assembly, that the Secretary’s authority under this section and under § 7-102 of this subtitle does not extend to all types of leave available to State employees. For example, work-related accident leave provided for in Subtitle 6 of this title is not covered by either subsection (b) of this section or § 7-102(a)(2) of this subtitle.
