3-304.

In cooperation with the Public Service Commission, the Maryland Energy Administration, and the Secretary of the Environment, the Secretary shall implement a long-range environmental evaluation of power plant building sites projected for at least 10 years. To facilitate providing adequate electric power on reasonable schedules at reasonable costs with the least possible depreciation of the quality of Maryland's environment, the following responsibilities and procedures are set forth:

(3) The Secretary with the advice of the Director of the Maryland Energy Administration and the Secretary of the Environment shall initiate a detailed investigation of any site proposed in the ten-year plan which appears desirable or acceptable on the basis of preliminary environmental statements. With respect to any site in the plan on which authorized construction has not commenced by July 1, 1974, at least two years before construction is estimated to begin and if the preponderance of newly offered scientific evidence does not justify a revised classification as unsuitable, the Secretary shall publish a detailed environmental statement on the site. The statement shall consider and include information developed in the program outlined in § 3-303 OF THIS SUBTITLE.

DRAFTER'S NOTE:

Error: Incomplete cross-reference in § 3-304(3) of the Natural Resources Article.

Occurred: Ch. 4, § 1, Acts of 1973, First Special Session.

4-701.

(k) (3) The following are grounds for suspension under this section:

(ii) Conviction of a person for violations under this title so often as to indicate an intent to disregard the fish and fisheries laws of the State, provided that proceedings for revocation on this ground are based on no fewer than:

2. 5 convictions for violations occurring on separate days within any 365 day period, of any provisions under this title;
