

- (10) Adult education;
  - (11) The State share of basic current expenses as provided in § 5-202 of this subtitle;
  - (12) Student transportation, as provided in § 5-203 of this subtitle; and
  - (13) The school building construction aid as provided in § 5-301(c) of this title.
- 5-202.

(f) (1) An amount as determined in paragraph (2) of this subsection shall annually be set aside from the State shares of basic current expense aid to each county; these amounts are to be utilized for [vocational-technical] CAREER AND TECHNOLOGY education programs in accordance with guidelines adopted by the State Board of Education. These funds shall not be used to supplant local contributions for [vocational-technical] CAREER AND TECHNOLOGY EDUCATION programs. A county board of education shall maintain its fiscal effort on either a per student basis or on an aggregate basis for [vocational] CAREER AND TECHNOLOGY education, compared with the amount expended in the previous fiscal year, to be eligible to receive its [vocational-technical] CAREER AND TECHNOLOGY set-aside from basic current expense aid.

(2) The [vocational-technical] CAREER AND TECHNOLOGY set-asides from basic current expense aid for each subdivision are calculated as follows for each county:

(i) The number of full-time equivalent students in grades 10 through 12 enrolled in [vocational-technical] CAREER AND TECHNOLOGY EDUCATION programs in each county on September 30 of the previous year is divided by the statewide number of full-time equivalent students in grades 10 through 12 enrolled in [vocational-technical] CAREER AND TECHNOLOGY EDUCATION programs on September 30 of the previous school year.

(ii) The quotient derived in (i) is multiplied by \$3.9 million.

(iii) As determined under subsection (b) of this section, the State per pupil current expense aid in each county is divided by the statewide average per pupil basic current expense aid to determine an equalizing factor. The equalizing factor for each county is multiplied by the product derived in (ii) to determine the unadjusted set-aside for [vocational-technical] CAREER AND TECHNOLOGY education.

(iv) \$3.9 million is divided by the sum of the unadjusted set-asides for all counties derived in (iii) and this quotient is rounded to 7 decimal places to determine the adjustment factor.

(v) Each county's unadjusted set-aside for [vocational-technical] CAREER AND TECHNOLOGY education as derived in (iii) is multiplied by the adjustment factor derived in (iv). The resulting product is the set-aside from basic current expense aid for [vocational-technical] CAREER AND TECHNOLOGY education for the county.
