

company, street railroad company, sleeping car company, taxicab company, toll bridge company, and transit company. ["Common carrier" includes any person engaged in the public transportation for hire by motor vehicle of flammables in bulk.] Any provisions of this article to the contrary notwithstanding, "common carrier" does not mean and shall not include any county revenue authority or any toll bridges or other facilities owned and operated by any county revenue authority. "Common carrier" does not include any vanpool or launch service.

[(e)](D) "Company", as a designation for a type of enterprise, such as "public service company" or "electric company" means and includes any person owning such enterprise, whether in his own right or as agent, trustee, or receiver.

[(f)](E) "Electric company" means and includes any public service company, other than a company generating and/or transmitting electricity exclusively for its own use, (1) which (A) owns any electric plant and (B) transmits, sells, or distributes electricity, or generates electricity for distribution or sale; or (2) any such company which is authorized to erect, lay down or maintain wires, pipes, conduits, ducts or other fixtures in, over, or under streets for furnishing or distributing electricity, or to maintain underground conduits or ducts for electrical conductors; or (3) every municipal corporation in the business of supplying electricity for other than municipal purposes.

[(g)](F) "Electric plant" means plant owned by an electric company and includes but is not limited to batteries, boilers, buildings, cables, conduits, converters, dams, ducts (or other devices for containing or carrying electrical conductors), dynamos; easements, lamps, meters, motors, poles, power stations, real estate, services, transformers, waterfalls, water plant and water property.

[(h)](G) "Gas company" means and includes (1) any public service company authorized to erect, lay down or maintain pipes, conduits, ducts or other fixtures in, over, or under streets for furnishing or distributing gas; and (2) any public service company which (A) owns any gas plant, and (B) transmits, sells, supplies, or distributes artificial or natural gas, or manufactures gas for distribution or sale; and (3) every municipal corporation in the business of supplying gas for other than municipal purposes.

[(i)](H) "Gas plant" means plant owned by a gas company and includes but is not limited to boilers, buildings, condensers, easements, extensions, holders, lamps, mains, meters, pipes, pipe galleries, purifiers, retorts, real estate, scrubbers, services, and water gas sets.

[(j)](I) "Own" means own, operate, lease to, lease from, manage, or control.

[(k)](J) "Person" includes individual, corporation, firm, partnership, association, company, cooperative, joint stock company or association, and any other form of business enterprise.

[(l)](K) "Personnel of the Commission" includes commissioners, general counsel, officers and employees of the Commission.

[(m)](L) "Plant" includes gas plant, electric plant, railroad, street railroad, telegraph lines, telephone lines, water plant and all material, equipment, apparatus,
