

and Mental Hygiene (DHMH) and a representative of the private sector, develop standards for neonatal land and air transfer protocols, including staffing, clinical implications, and equipment necessary, by December 1, 1996 and report these standards to the General Assembly. MIEMSS and DHMH should also report the capability in the private sector to provide neonatal transfer services.

~~It is the intent of the General Assembly that the Maryland Institute of Emergency Medical Services Systems (MIEMSS) in coordination with Department of Health and Mental Hygiene (DHMH) and a representative of the private sector develop standards for neonatal land and air transfer protocols, including staffing, clinical implications, and equipment necessary, by December 1, 1996 and report these standards to the General Assembly. MIEMSS and DHMH should also report the capability in the private sector to provide neonatal land and air transport services. It is also the intent of the General Assembly that SYSCOM continue to coordinate neonatal transport communications. Until DHMH establishes a system of regionalized perinatal care, anticipated by June 1997, existing carriers and protocols should continue.~~

CANAL PLACE PRESERVATION AND DEVELOPMENT AUTHORITY

It is the intent of the General Assembly that the Canal Place Preservation and Development Authority reduce its reliance on the general fund and raise additional revenues, where feasible, through its activities to support the operating expenses of the Authority.
