(b) Each year a municipal corporation that is located in more than one county within the Maryland-Washington Regional District is entitled to a portion of the allocation of funds made to each county in which the municipal corporation is located. The Maryland-National Capital Park and Planning Commission shall calculate the portion for each county. The portion equals the population of the municipal corporation located within the county, divided by the population of the county, times the funds allocated to the county. The Maryland-National Capital Park and Planning Commission shall keep a record of the entitlement for each year.

(c) A municipal corporation that is located in more than one county within the Maryland-Washington Regional District shall follow the approval process under this subtitle to obtain approval to use funds from its entitlement for a local project. (d) This section applies notwithstanding any other provision of this subtitle.]
