

(2) Only dredge spoil from local dredging projects initiated by Baltimore County in the waters of Baltimore County may be redeposited in any additional contained area for the redeposit of spoil authorized under subsection (a)(1) of this section.

16-202.

(a) A person may not dredge or fill on State wetlands without a license.

(b) The Secretary shall assist the Board in determining whether to issue a license to dredge or fill State wetlands. The Secretary shall submit a report indicating whether the license should be granted and, if so, the terms, conditions, and consideration required after consultation with any interested federal, State, and local unit, and after issuing public notice, holding any requested hearing, and taking any evidence the Secretary thinks advisable.

(c) (1) Upon receipt of a report by the Secretary, the Board shall decide if issuance of the license is in the best interest of the State, taking into account the varying ecological, economic, developmental, recreational, and aesthetic values each application presents. If the Board decides to issue the license, the issuance of the license shall be for consideration and on terms and conditions the Board determines. Every license shall be in writing.

(2) With respect to an application for a license to fill or construct a shore erosion control structure other than riprap on State wetlands, the Board may issue the license without public notice if the fill area is less than 300 feet in length parallel to the fast land as close to the fast land as structurally feasible but not more than 10 feet channelward of the mean high water line and if after a site visit the report of the Secretary recommends that the license be granted. The Board may issue a license without public notice where an emergency exists caused by act of God, natural disaster, catastrophe, or other similar natural event when the health, safety, or welfare of the citizens of the State would be jeopardized by a delay caused by time requirements for public notice. However, the license may be granted by the Board only with the concurrence of the Secretary. The Secretary shall provide prompt public notice of the emergency license issuance and the opportunity to submit written comments or to request a hearing to determine whether the emergency license shall be revoked or made permanent. If a hearing is requested, the hearing shall be scheduled within 30 days of the emergency issuance of the license.

(3) If the report of the Secretary recommends that a license be granted, the Board may issue the license without public notice:

(i) To fill or construct a shore erosion control structure of riprap on State wetlands if the fill area is less than 500 feet in length parallel to the fast land as close to the fast land as structurally feasible but not more than 10 feet channelward of the mean high water line;

(ii) To repair or replace a bulkhead for the purpose of shore erosion control where the bulkhead is presently functional, but is deteriorating or damaged, provided that the repair or replacement structure does not extend more than 18 inches
