

It is further the intent of the General Assembly that the cost of renovating the existing facility shall be shared between the State, Baltimore City and, to the extent possible, private sources.

The State Department of Education and the State Library Resource Center shall submit a report to the budget committees by September 1, 1997:

- (1) detailing the history of operating and capital funding support for SLRC by the State and by Baltimore City and indicating the level of future operating support which will be required of each; and
- (2) providing a strategic plan for SLRC to increase the use of SLRC by other libraries through increased use of new technology, enhancement of collections, and provision of specialized services (e.g., manuscript restoration/preservation). The plan should indicate the costs associated with these initiatives.

The Department of General Services shall verify the reasonableness of the cost estimates provided by the library's consultants and provide this information with the submission of the Fiscal Year 1999 budget
