Article - Natural Resources

3-302.

(a) There is an Environmental Trust Fund. For the purpose of this subtitle, there is established as an added cost of generation, an environmental surcharge per kilowatt hour of electric energy generated in the State to be paid by any electric company as defined in § 1-101 of the Public Utility Companies Article. This surcharge initially shall be assessed at [0.1 mill] 0.1 MIL per kilowatt hour as of January 1, 1972. The Public Service Commission shall impose the surcharge per kilowatt hour of electric energy generated within the State and shall authorize the electric companies to add the full amount of the surcharge to customers' bills. To the extent that the surcharge is not collected from customers, the surcharge shall be deemed a cost of generation and shall be allowed and computed as such, together with other allowable expenses, for rate-making purposes. Revenues from the surcharge shall be collected by the Comptroller and placed in the Fund.

3-904.

(f) (1) "Project" means the facilities and properties used or useful or having present capacity for future use in connection with:

[(1)](I) The transporting, transferring, compacting, burying, incinerating, reduction, composting, collection, storage, treatment, utilization, processing, or final disposal of waste;

[(2)](II) The conversion of waste to fuel, steam, electricity, energy, or other resources or the generation of steam, electricity, or other forms of energy from fuel which is derived from, or is otherwise related to, waste;

[(3)](III) The reconstruction, converting or otherwise recycling of waste into material which is not waste or which is useful or is marketable; or

[(4)](IV) Any combination of the foregoing (whether or not such facilities are located on a single site). The term "project" also includes but shall not be limited to:
