REVISOR'S NOTE: This section is new language derived without substantive change from former Art. 27, §§ 681J and 681K(b).

In subsection (a)(1) of this section, the former reference to the "authority" of the General Manager to determine the personnel needs of State Use Industries is revised as an affirmative duty to state expressly that which was only implied in the former law.

In subsection (a)(1)(i) of this section, the former reference to the personnel "needs" of State Use Industries is deleted as implicit in the reference to the personnel "requirements" of State Use Industries.

Also in subsection (a)(1)(i) of this section, the former reference to the personnel requirements of "programs and product and service industries" is deleted as implicit in the broad reference to the personnel requirements of "State Use Industries".

In subsection (a)(1)(ii) of this section, the former reference to "subordinate" personnel is deleted as unnecessary because all personnel in State Use Industries are subordinate to the General Manager.

In subsection (a)(2) of this section, the reference to "personnel" allocations is substituted for the former reference to "manpower" allocations for consistency with subsection (a)(1) of this section.
