

of "State correctional facility" in SF § 11-101(v) does not differ in any substantive way from the definition of this term in § 1-101 of this article. However, to ensure that "State correctional facility" is always defined to have the same meaning in SF § 11-101(v) and § 1-101 of this article, the General Assembly may wish to amend SF § 11-101(v) to provide that "State correctional facility" has the meaning stated in § 1-101 of the Correctional Services Article". If the General Assembly chooses to amend SF § 11-101(v) to track the definition of "State correctional facility" in § 1-101 of this article, this subsection should be deleted as circuitous.

**REVISOR'S NOTE TO SECTION:** The Correctional Services Article Review Committee notes, for consideration by the General Assembly, that, in addition to the term "State correctional facility", two terms that are used in this subtitle are defined in SF § 11-101. These terms are "architectural services" and "engineering services". The General Assembly may wish to define these two terms in this section in the same way that they are defined in SF § 11-101. The General Assembly also may wish to define "construction related services" in this section in the same way that it is defined in SF § 11-101 and use it as a substitute for similar references throughout this subtitle (e.g., references to a "matter concerning construction").
