[15A-8.] 12-108. Fees in solid waste collection or disposal.

For the purposes of carrying out the provisions of this [subtitle] TITLE, the County, by resolution, may impose reasonable rates and charges for solid waste collection or disposal. The funds derived from [such] THE rates and charges shall be used to pay the costs of the County's solid waste projects, including (without limitation) the principal of and interest on bonds issued under this [subtitle] TITLE. The resolution may establish a reasonable basis for setting the rates and charges, prescribe a schedule of rates and charges, and designate solid waste collection or disposal service areas within the County. The resolution may provide that the rates and charges are chargeable against all or part of the occupied lots or parcels of land in the County or in service areas established by the County and constitute a first lien on such property and may establish reasonable times and methods for collection of the rates or charges, which may be levied and collected and have the same priority and rights and bear the same interest and penalties and in every respect be treated the same as taxes of the County. The County may modify the amount of the rates and charges by a resolution or by other action authorized by the resolution imposing the rates and charges. Before setting or modifying the rates and charges, the County shall give notice of the proposed rates or charges in at least one newspaper of general circulation in the County and hold a public hearing on the necessity or advisability of the proposed rates or charges. The powers granted by this section are in addition to other powers of the County granted under law and may not be restricted by any debt or tax rate limitation in any general or local law. Rates and charges imposed under this section are not subject to the jurisdiction of any authority or other unit of government.
