

7-206.

(a) This section applies to the installation of pollution control equipment or a change in the method of operation at a generating station that [an electric company] A PERSON performs in order to comply with Phase II pollution control requirements of the federal Clean Air Act.

(b) [An electric company] ANY PERSON that performs an installation or change in operation under subsection (a) of this section shall obtain prior review and approval of the Commission in accordance with:

(1) §§ 7-203, 7-207, and 7-208 of this subtitle; and

(2) the procedures set forth in § 7-205 of this subtitle and § 2-405 of the Environment Article.

7-208.

(a) This section applies to [an electric company] ANY PERSON:

(1) constructing a generating station and its associated overhead transmission lines designed to carry a voltage in excess of 69,000 volts; or

(2) exercising the right of condemnation in connection with the construction.

(b) (1) To obtain the certificate of public convenience and necessity required under § 7-207 of this subtitle for construction under this section, [an electric company] A PERSON shall file an application with the Commission at least 2 years before construction of the facility will commence.

(2) The Commission may waive the 2-year requirement on a showing of good cause.

(c) [An electric company] THE APPLICANT shall:

(1) include in an application under this section the information that the Commission requests initially; and

(2) furnish any additional information that the Commission requests subsequently.

(d) (1) On the receipt of an application under this section, together with any additional information requested under subsection (c)(2) of this section, the Commission shall provide notice to:

(i) all interested persons;

(ii) the Department of Agriculture;

(iii) the Department of Business and Economic Development;

(iv) the Department of the Environment;

(v) the Department of Natural Resources;
