

(6) ESTABLISH PROCEDURES FOR THE STATE FIRE MARSHAL TO DENY, SUSPEND, OR REVOKE THE LICENSE OF A PERSON WHO FAILS TO COMPLY WITH ANY REGULATION ADOPTED BY THE STATE FIRE PREVENTION COMMISSION UNDER THIS SUBTITLE.

REVISOR'S NOTE: This section is new language derived without substantive change from former Art. 38A, § 3(f)(2) and (3).

In subsection (a) of this section, the former phrase "in any residential or commercial building in the State" is deleted as an unnecessary limitation because fire sprinkler contractors must be licensed to install a fire sprinkler system in any type of building in the State.

In the introductory language of subsection (b) of this section, the requirement to "adopt regulations to" define certain terms and establish certain requirements is added to clarify that the State Fire Prevention Commission performs the specified duties by adopting regulations.

In subsection (b)(1) and (2) of this section, the references to "fire" sprinkler contractor and "fire" sprinkler system are added for clarity and consistency throughout this subtitle.

In subsection (b)(5) of this section, the former phrase "using dollar amounts" is deleted as surplusage.

In subsection (b)(6) of this section, the phrase "under this subtitle" is added for specificity.

Defined terms: "Fire sprinkler contractor" § 9-901
