

requirement that there be a final acceptance inspection of elevator units is implicit in the requirement that the contractor schedule a final acceptance inspection and the prohibition that an elevator unit may not be operated without a certificate of inspection and registration.

Subsection (b) of this section is revised as a requirement for the Commissioner to provide an inspection checklist rather than as a definition of "inspection checklist" for clarity.

In subsections (b) and (c)(1) of this section, the reference to the "Safety Code and other regulations adopted by the Commissioner" is substituted for the former references to "applicable safety codes and rules and regulations adopted by the Commissioner" for specificity and to use the defined term.

In subsection (d) of this section, the former reference to the "elevator, dumbwaiter, escalator, or moving walk" contractor is deleted as unnecessary given the context of the provision.

Defined terms: "Commissioner" § 12-801

"Elevator unit" § 12-801

"Safety Code" § 12-801

In subsection (a) of this section, the reference to the "Safety Code" is substituted for the former reference to the "applicable safety code, as adopted by the Commissioner" for specificity and to use the defined term.

In subsection (b) of this section, the former phrase "when issued" is deleted as surplusage.
